A message from our General Manager

Greetings,

With over 20 years in the pipeline industry, moving through various roles to support major projects across Western Canada, my journey has been rich and rewarding. Based in Edmonton, my team and I extend our support far and wide, guided by a philosophy of RISE - Respect, Integrity, Service Excellence, and Empathy.

My experience alongside top purchasing agents, warehouse managers, and yard staff has gifted me with invaluable insights. We understand the industry's pulse, have deep connections across Edmonton and Western Canada, and are poised to offer tailored support without the overheads of full-time hires when not required.
